

## Options & Accessories

Two heads are better than one! Add an additional **interchangeable head and hands** – male or female, human or animal, Caucasian, African-American or Hispanic. \$425

**Water Squirter** – squirts a stream of water wherever your robot looks. Can be built into most vehicles and operated by remote control. \$80

Built-in, **15" to 19" LCD TV and CD/DVD** player, including sound amplification system, operates with standard remote control. Available only in select larger vehicles. Your audience will be amazed to see the TV screen appear and 'disappear'. Plays standard CDs and DVDs. Screen size is dependent on product availability and the size of the vehicle chosen. \$1250

**Voice Modifier** – raises or lowers the pitch of the operator's voice. Built into the robot and operated by remote control. \$250

Set of 6 **Traffic Signs** - Includes Stop Sign, Speed Limit 25, One Way, Railroad Crossing, Yield and School Crossing. 30" tall pole; plastic base, pole and tops. \$75

**Extra Battery Package** – Includes an extra robot battery, transmitter battery, transceiver battery, and extra chargers for your robot, transmitter and transceiver. Ideal for all-day events, parades, etc. \$175

### Costumes –

Lab coat	\$45
Racing Outfit	\$100
Flight Suit	\$100
Astronaut Suit	\$100

Our **Shipping & Storage Cases** are custom made to fit your vehicle and robot. The exterior is plywood covered with hard plastic and reinforced with aluminum corner pieces. Heavy duty wheels and latches. Foam interior. \$450 – \$1250

Hugh on his John Deere Tractor

Mel drives an ambulance

Max on his Motorcycle

Maggie in a wheelchair

Probotics America's Mechanical Men series combines some of the best features of STAR robots and BikeBots. Like STARs, Mechanical Men can show your videos, photos or even presentations from a giant DVD/TV built into his chest and augment them with his flashing lights. Sound is loud and clear with dual waist-mounted speakers and a powerful amplifier. Best of all, remove a plug, a pin and the head to make your five foot tall Mechanical Man come apart for transportation in a sedan, like a BikeBot — no dedicated trailer or van required!

## BabyBots

Becky

Evan

Cindi

Molly
